

idesk

TIKAL internationally renowned architect Claudio Bellini crafted the Tikal series to be a spirited addition to idesk's seating line. Natural applications are as desk side chairs, events, reception areas, small conference, auditorium, breakout areas and cafes, except for the upholstered version. The complimentary bar stool fits well into counters and with high work tables. The shells come in 5 vibrant colors or upholstered in 3 colors mounted on bases of either four leg, four prong spider, sled base or bar stool along with a small side table. **value revolution**
